The Incident Game

SIEMENS

Siemens: The Tech Company

Operating worldwide:

Together with customers, partners and around **320.000 employees** in more than **190 countries** in various business & expert areas.

SIEMENS

Siemens: The Tech Company

This translates to:

Lots of assets, software, servers, clients, vast networks & diverse products to attract threat actors with more than **100.000 attack attempts** yearly.
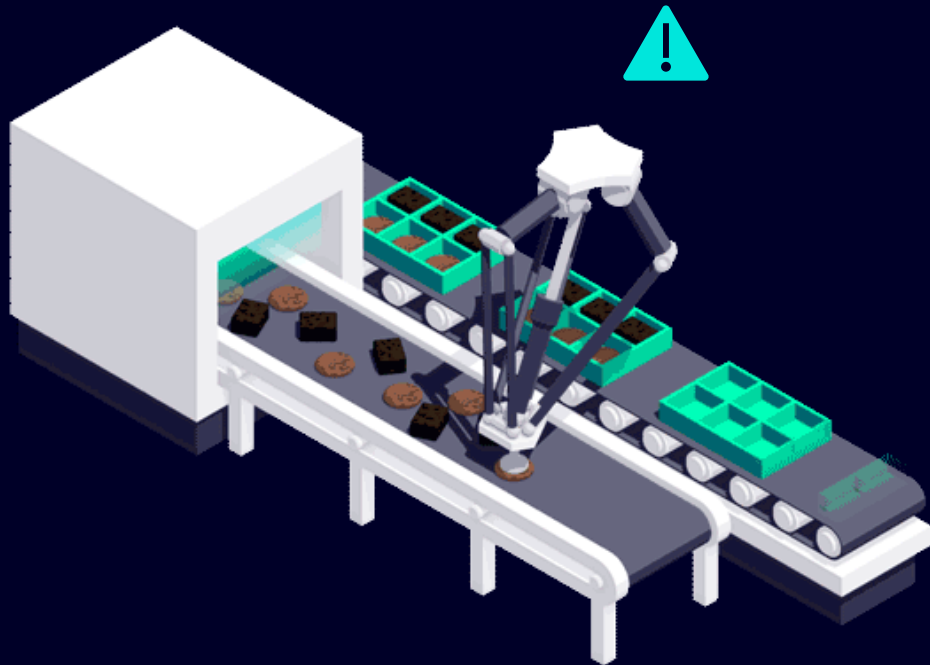

SIEMENS

Cybersecurity:
The key to combine the real & the digital world

For automation in protecting a huge number of assets:
A digital (IT) environment twin

SIEMENS

But that's for work…
**It's Friday, let's party!**

SIEMENS

Sometimes a party faces a challenge:

When the roof might get on fire, when a critical software vulnerability is announced...

How can the vulnerability be exploited?
Does that make it critical for us?
Do we have an overview?
What should we prioritize?
What can we do?

SIEMENS

Join our party and have a challenge:

Use & Analyze our digital twin

Be creative and **determine** the security posture & **visualize it**

Present your ideas to Siemens' Cybersecurity Management

SIEMENS

Hack with us & get insights to Cybersecurity at Siemens.

The Big Scale. See more in room **00.10.011**.
