City of Munich

Challenge

HackaTUM 21.11.25

Smart City of Munich

What
is „Smart
City“?

Urban environment that uses digital technologies

Connects cities and focus on needs of citizens

Uses technologies for sustainable use of resources

Smart City is a development concept to make cities more liveable

First a little trip to the past

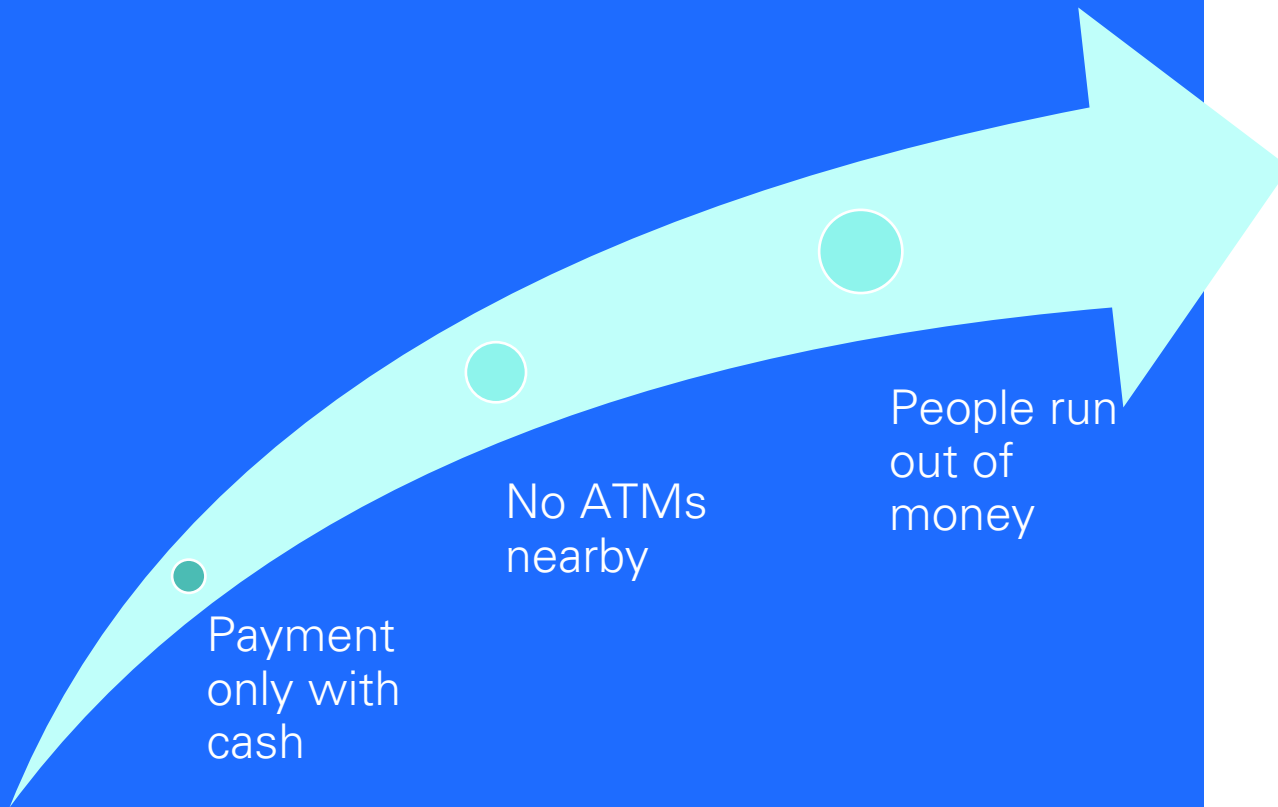

Who has heard of StuStaCulum before?

StuStaPay

Project by Jonas Jelten, Leo Fahrbach, Lars Frederik Peiss

Landeshauptstadt
München

Always on the go:
Wolfgang Glock

The winning team
2016

Trends of 2016

Landeshauptstadt
München
IT-Referat

So, all in all...

**Everything
was perfect**

Back in Munich 2025...

Landeshauptstadt
München
IT-Referat

1. Democracy is crumbling
2. Very few affordable housing options
3. Financial issues
4. Way too much paperwork
5. Global warming

So we need someone who can save us!
But who can it be?

We need City heroes!
