

# Build A Cross-Platform App

From idea to app — faster than ever, on every platform

**Wout Werkman**  
Developer

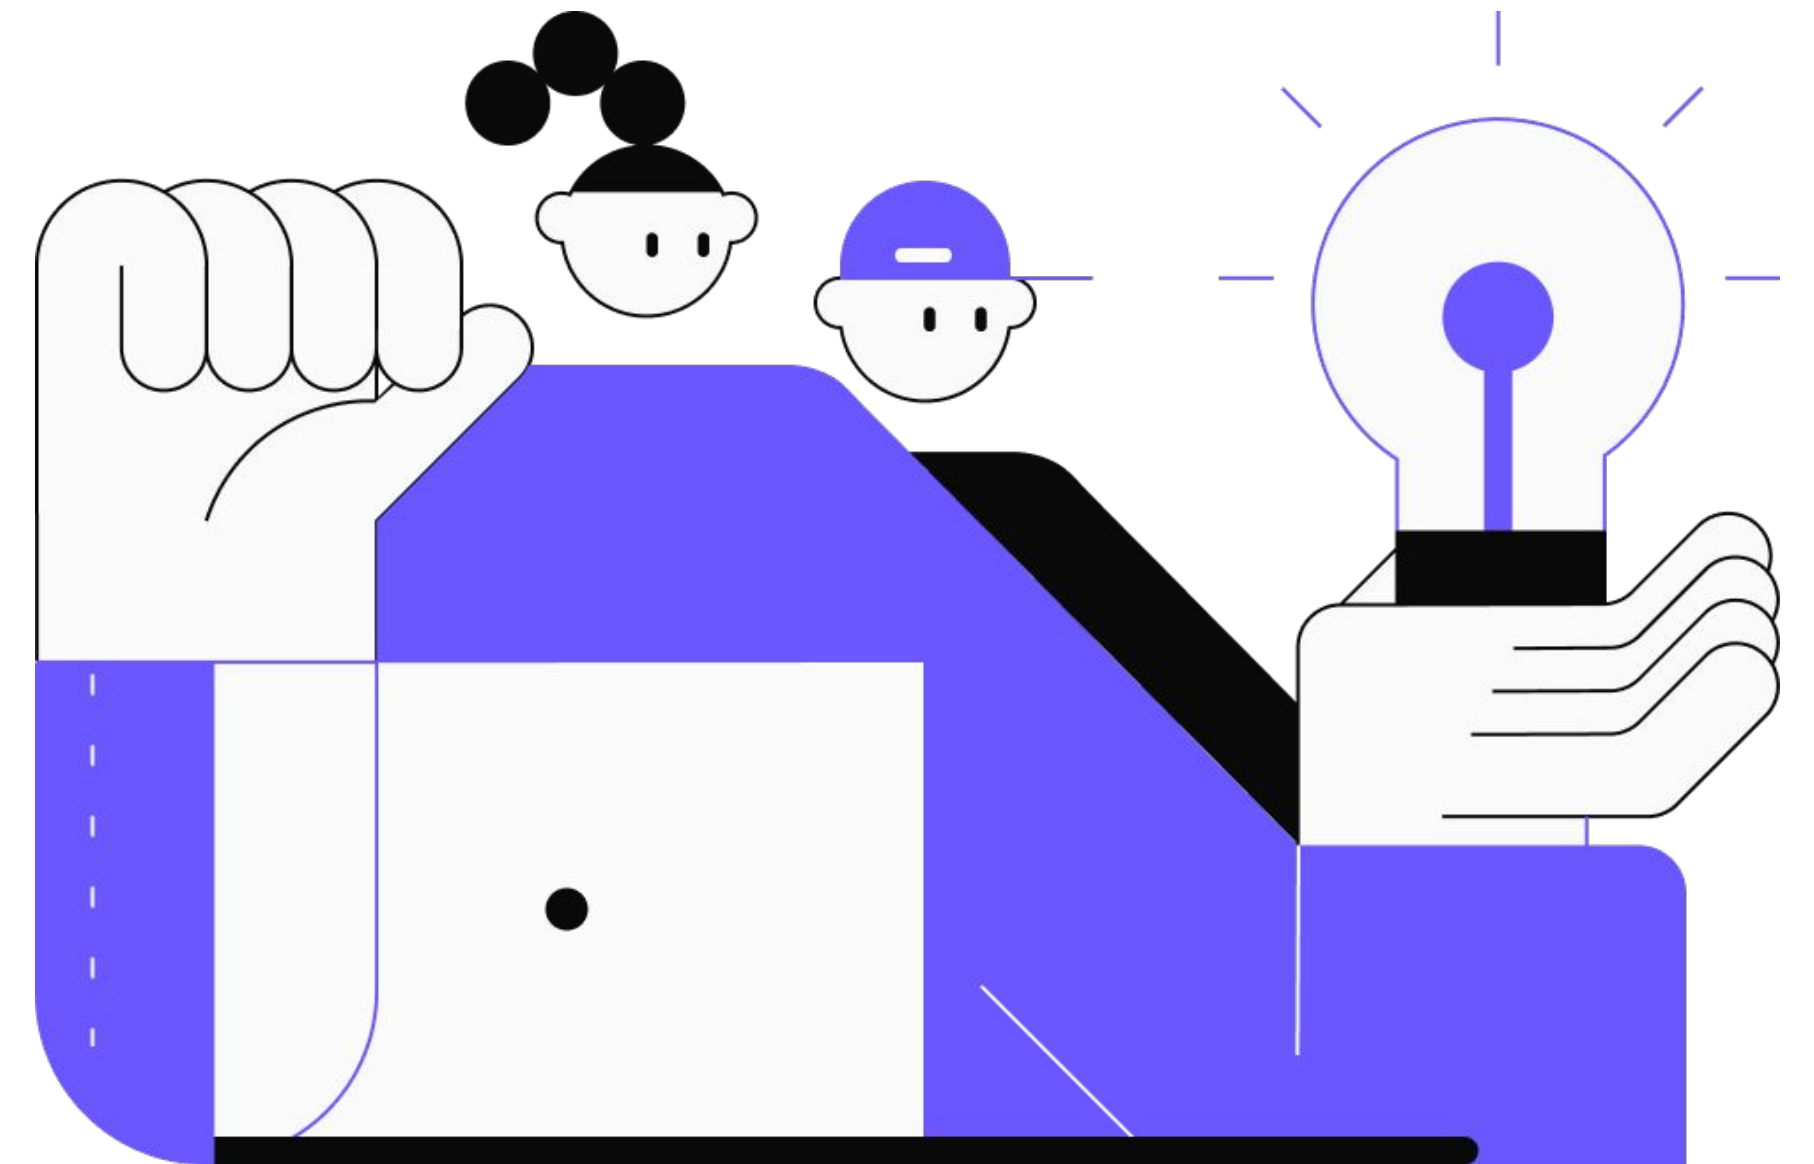

**If you want to learn how to build smarter,  
cross-platform apps — join this challenge.**

# Why Join

---

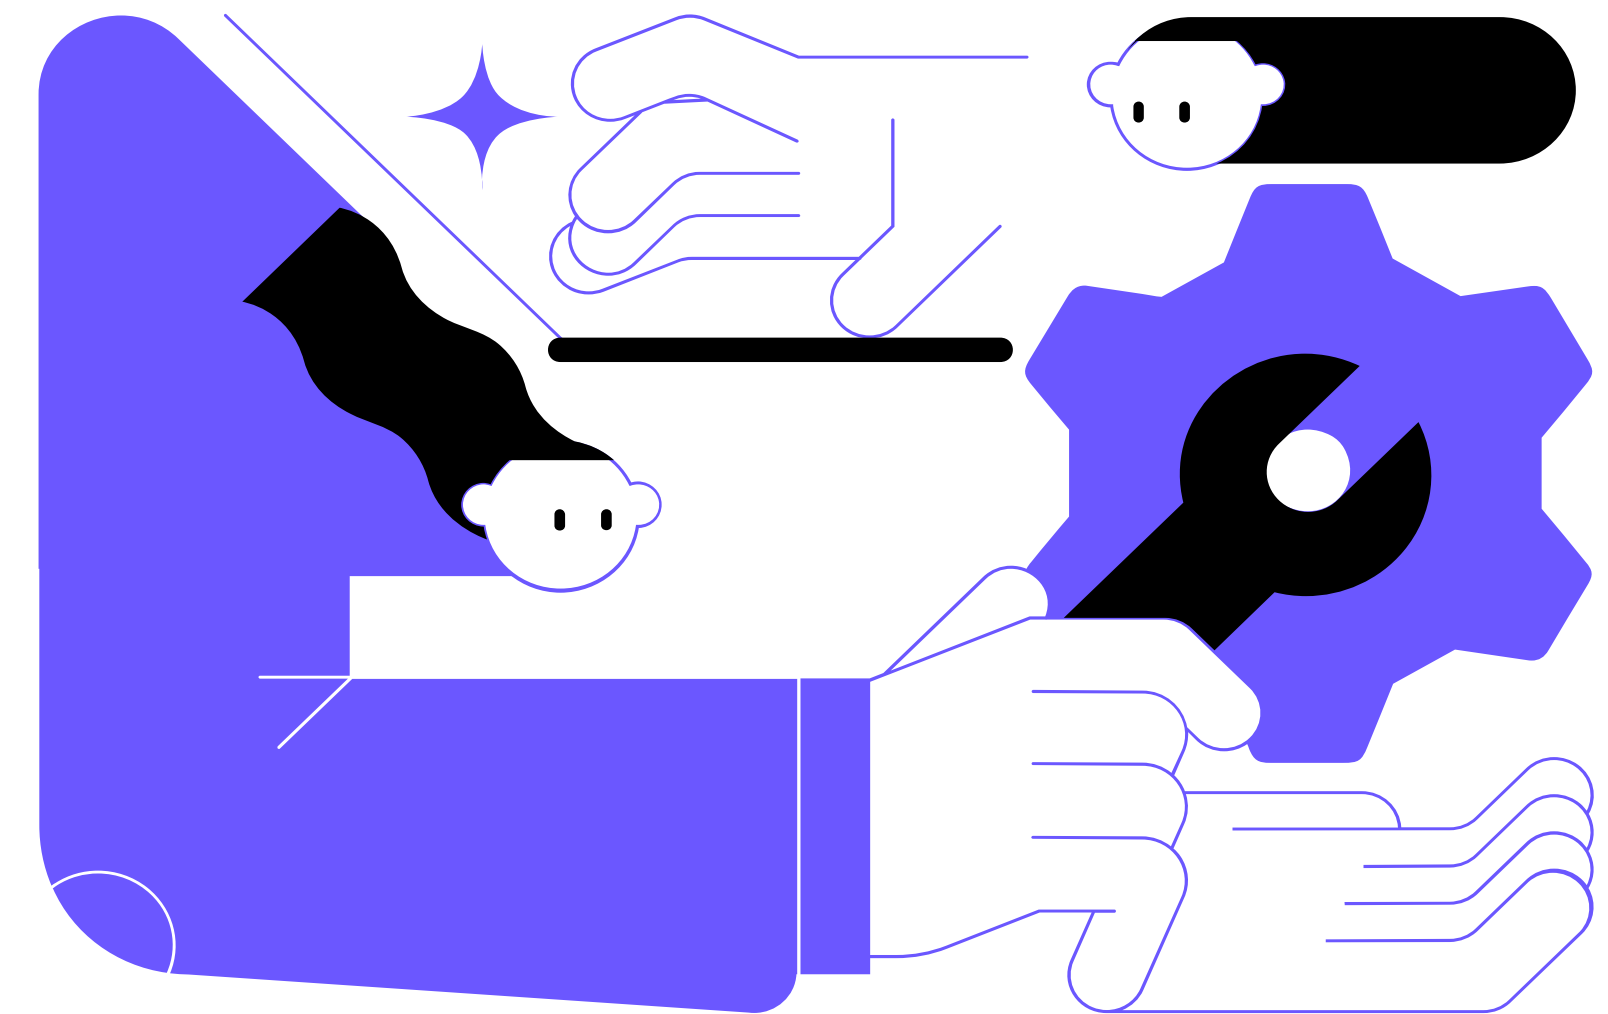

- See how to reuse code between platforms (mobile/web/desktop)
- Practice architectures with shared businesses logic
- Get hands-on experience with a technology used by top companies

# What do we expect?

---

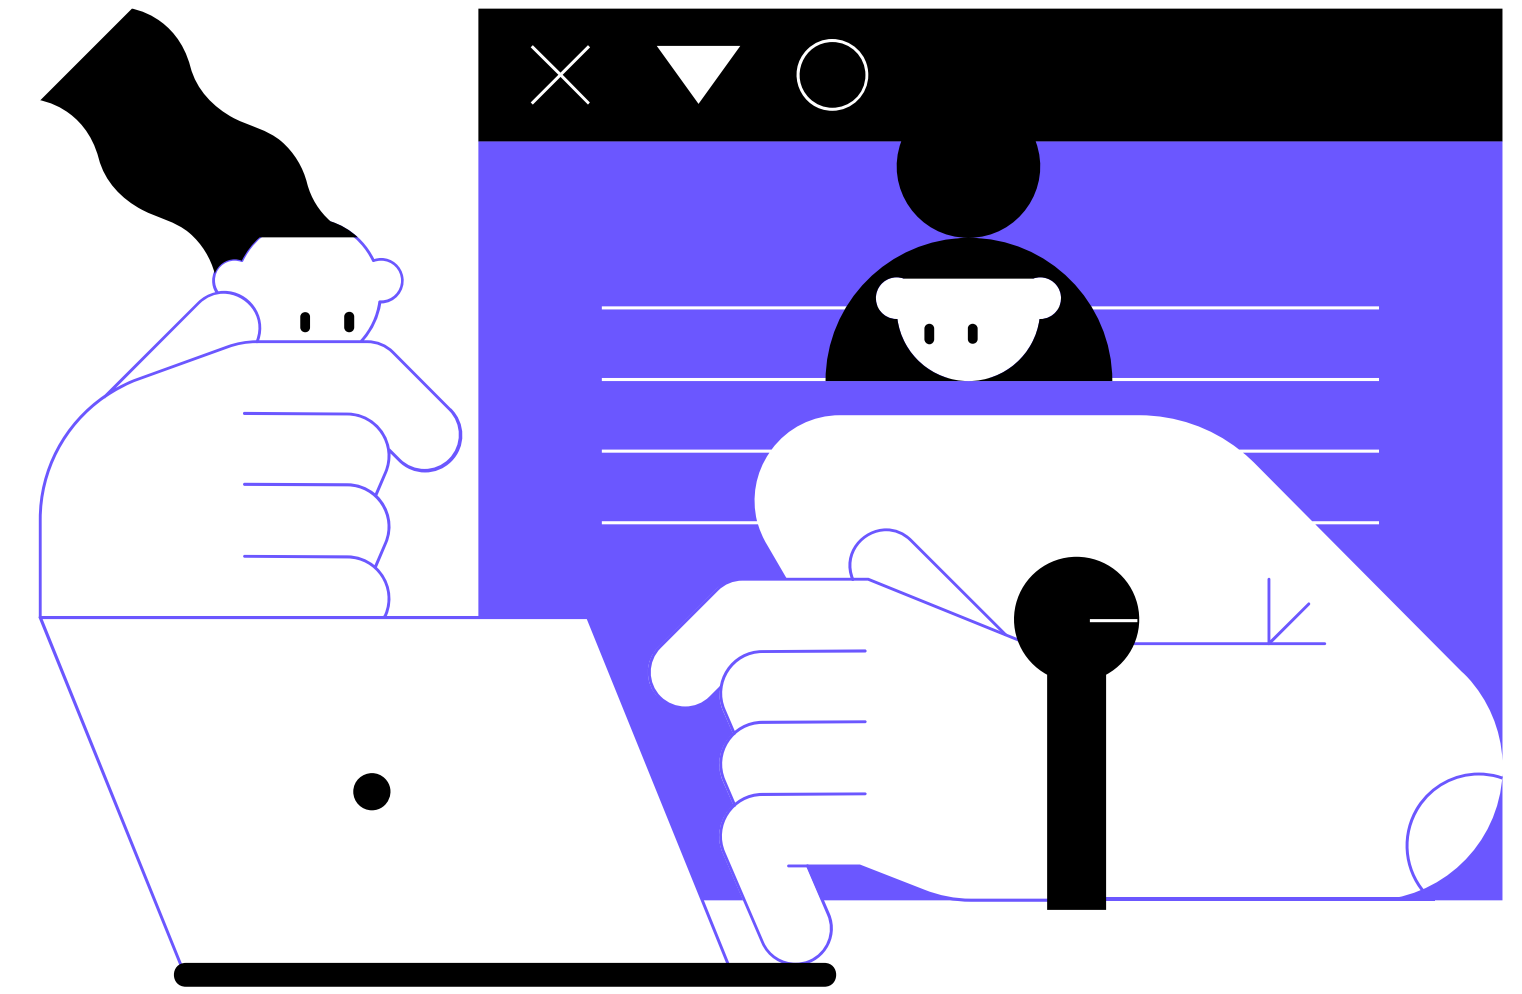

- A working cross-platform app
- Clean shared logic
- Creative use of KMP features

# What will you learn?

---

- To structure shared logic between mobile platforms
- Simplify your UI work with Compose Multiplatform
- How to think about code sharing in real-world apps

**Good luck, have fun ...**
